

What is Job Corps?

Job Corps is the nation's largest career technical training and education program for low-income young people ages 16 through 24. Established in 1964, Job Corps serves approximately 60,000 young people each year and takes pride in its diverse student population, welcoming all who qualify.

WHERE IS JOB CORPS?

There are 125 Job Corps centers located in 48 states, the District of Columbia, and Puerto Rico. To support all of the centers, Job Corps manages outreach, admissions, and career transition operations at hundreds of locations nationwide.

While enrolled in the program, students receive housing, meals, basic medical care, and biweekly living allowances.

Job Corps also has a strict Zero Tolerance Policy for drugs and violence. Since Job Corps is a self-paced program, and lengths of stay vary, students may remain enrolled for up to 2 years.

TRAINING AND EDUCATION

The Career Development Services System (CDSS) is Job Corps' way of providing seamless services to students, including recruitment, education, career training, job assistance, and transitional support services after graduation.

Upon joining Job Corps, each student works with staff to develop an individualized Personal Career Development Plan (PCDP) to stay

on track for success.

Students can receive hands-on training in career areas such as Construction, Finance and Business, Health Care, and Information Technology. Additionally, Job Corps is committed to the development of green job training and preparing students for careers in fields that will lead to a cleaner, more energy-efficient future.

Job Corps students participate in on-the-job training at real work sites through work-based learning opportunities. In the academic classroom, students have the opportunity to earn a high school diploma or the equivalent, and learn employability and independent-living skills.

AFTER GRADUATION

Job Corps works with its graduates to help them find good jobs in high-growth industries with employers across the country. Employers save time and money by hiring skilled Job Corps graduates who are trained on industry procedures and equipment.

Job Corps graduates receive transitional support services, including help locating a job, housing, child care, and transportation.
